Green & Golf Committee report from Virginia Horler & Cathy Loffink

Per Andrew, Course Superintendent, there will be winter projects that will include leveling the tee boxes & removing paths from fairways. Paved paths will remain near tees & greens. Barriers will be placed around greens to protect them from cart damage. In addition, Special club events should not be scheduled next 3/23/26, 9/14/26 and 9/21/26 due to aerification scheduled for those dates.

Per Chris Bensel: (1.) A sewer line will be replaced along the right side of RED ONE; will need HOA approval 1<sup>st</sup>, then Bunkers can be worked on to correct dampness caused by drainage problems. (2.) He also plans to have classes for all club members to learn how to fix indents on the greens by using the appropriate tool. (3.) Part of staff on furlough for winter season.

Cathy Loffink, brought up an issue(s) of those using handicap flags on golf driving carts according to the Golf Club: (a.) driving too close to the tees & greens. Per Chris Bensel all carts should remain 30 feet from greens & all four wheels on electric carts should be on the paths around tees & greens. Golfers with push carts should abstain from having their carts too close to the greens but are allowed if necessary to push their carts along the rough next to the greens. Next year the Golf Club may install Eco Fencing which will prevent rental cart from driving too close to the tees & greens. (b.) Those using handicap flags are forgetting to return them back to the Pro Shop. (c.) The Golf Club is considering enforcing these issues via a policy implementation.
